

## Forest and Environment (undergraduate)

Course		Credits	
Mathematics	8		
Physics	6		
General chemistry	10		
General biology	8		
Plant sciences	6		
Agricultural politics and economics	8		
Language skills	3		
Computer skills practice	3		
Free courses	8		
Soil science	8		
Forest ecology	8		
Microbiology and industry	10		
Forest pathology	8		
Entomology	8		
Forest management	8		
Free courses	2		
<b>Curriculum: Mountain production</b>		<b>Curriculum: Forest and environment</b>	
Remote sensing and cartography	6	Remote sensing and cartography	6
Energy engineering	12	Energy engineering	12
Rural and forest constructions	8	Rural and forest constructions	8
Wood technology	6	Forest plant sciences	8
Mountain agronomy and bee culture	6	Estimation techniques	8
Mountain animal breeding and nutrition	12	Mountain hydrometry	8
Free courses	4	Free courses	4
Final dissertation	6	Final dissertation	6

**Total credits: 180**
