

## Medicine and Surgery

Course	Credits
Basic sciences	8
Sociology of medicine	9
Human anatomy	8
Biochemistry, biology and genetics	12
Computer skills practice	3
Histology and cell biology	10
Medicine computing	3
Practicum	2
Human biochemistry	6
Human physiology	8
Morphology and function of the nervous system	11
Infections and Immunity	12
Statistics and health	5
Free courses	3
Practicum	9
English	3
Pathology and physiopathology	8
Epidemiology	4
Laboratory medicine	9
Medical physiopathology and methodology	8
Surgical physiopathology and methodology	6
Human nutrition	8
Practicum	8
Free courses	6
Respiratory and cardiovascular diseases	9
Special pharmacology (I)	6
Digestive and endocrinous-metabolic disorders	8
Neoplastic and haematological diseases	8
Integrated diagnosis	6
Pathologic anatomy	8
Kidney diseases	4
Practicum	12
Special pharmacology (II) and toxicology	5
Image diagnosis	5
Psychiatry	4
Public health and infectious diseases	12
Head and neck diseases	7
Skin diseases	3
Neurological sciences	6
Articular diseases	6
Practicum	13
Midwifery and gynaecology	5
Internal medicine and geriatrics	10
General and emergency surgery	9

Paediatrics	7
Practicum	16
Final dissertation	12
