

Midwifery

Course	Credits
Propaedeutic sciences	5
Physics	
Statistics	
Chemistry	
Molecular and cell biology	6
Cell biology	
Biochemistry	
Molecular biology and genetics	
Human sciences and psycho pedagogy of health	4
Pedagogy	
General psychology	
Sociology	
Morphological and functional bases	8
Anatomy and histology	
Physiology	
Pathology fundamentals	5
Pathology	
Microbiology	
Physiopathology	
Midwifery fundamentals	7
Midwifery bases	
General nursing	
General midwifery	
Medical midwifery fundamentals	
English	3
Practicum	17
Free courses	2
Computer skills practice	3
Midwifery medicine	7
Internal medicine	
Medical issues in midwifery	
Gynaecology and infectivology	
Respiratory diseases	
Hygiene and community medicine	5
Hygiene and public health	
Infectious diseases	
Epidemiology	
Skin diseases and venereal diseases	
Pharmacology and laboratory diagnosis	6
Pharmacology	
Clinical biochemistry	
Clinical pathology	
Medical microbiology	
Pathologic anatomy	
Surgery and midwifery	5
General surgery	

Surgery and midwifery Clinical physiopathology of reproduction Endocrinology and midwifery Clinical physiopathology of reproduction Clinical physiopathology of reproduction Clinical physiopathology of pregnancy and delivery Paediatrics Gynaecologic, obstetric and perinatal pathology Assistance to Gynaecologic and obstetric pathologies Assistance to neonatal pathologies Assistance to neonatal pathology Practicum Planning and regulating reproduction Obstetric assistance to planning and regulation of reproduction Obstetric assistance to planning and regulation of reproduction Managing planning and regulation of reproduction Managing planning and regulation of reproduction Gynaecology and oncology Urology Medical oncology Urology Medical oncology Gynaecological surgery and midwifery Obstetric assistance in oncology Managing patients with oncology issues Health management Planning and organization Management of health business Managing nosocomial infections Organizing midwifery assistance Health law, deontology and ethics Professional ethics Research methodology Research in nursing and midwifery Statistics ICT and medicine English 1 Practicum Free courses Final dissertation 9	Anaesthesiology
