

Nutrition

Course	Credits
Propaedeutic sciences	4
Physics	
Statistics	
Biology	3
Applied biology	
Genetics and molecular biology	
Molecular biology	3
Propaedeutic biochemistry	
General biochemistry	
Morphological bases	3
Human anatomy fundamentals	
Physiology fundamentals	
Clinical nutrition fundamentals (I)	15
Nutritional biochemistry	
Nutritional physiology	
Computer and language skills	6
English	
Computer bases	
Free courses	3
Practicum	22
Pathology fundamentals	3
Pathology	
Microbiology	
Physiopathology	
Physiopathology and clinical pathology	7
Clinical physiopathology	
Pharmacology	
Pharmacotoxicology and nutrition	
Laboratory diagnosis and nutrition	
Clinical nutrition fundamentals (II)	3
Dietary techniques applied to clinical nutrition	
Approach to patients	4
General psychology	
Socio pedagogy	
History of medicine	
Dietary techniques applied to internal	6
pathologies	
Kidney diseases	
Gastroenterology	
Dietary techniques applied to internal medicine	
Hygiene and medical microbiology	5
Hygiene	†
Medical microbiology	
Epidemiology and prevention of eating diseases	+
and proversion or daming discussed	1

Legal medicine Management of health business Public health fundamentals Eating disorders Dietary techniques and eating disorders General sociology Psychiatry and eating disorders Free courses Practicum Dietary techniques applied to endocrinology and metabolism disorders Endocrinology Metabolism disorders Dietary techniques applied to metabolism disorders Dietary techniques applied to Preventive medicine Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum Final dissertation 9	Health management	5
Management of health business Public health fundamentals Eating disorders Dietary techniques and eating disorders General sociology Psychiatry and eating disorders Free courses Practicum Dietary techniques applied to endocrinology and metabolism disorders Endocrinology Metabolism disorders Dietary techniques applied to metabolism disorders Dietary techniques applied to Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses Practicum 4 Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 4 Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10		,
Public health fundamentals Eating disorders Dietary techniques and eating disorders General sociology Psychiatry and eating disorders Free courses Practicum Dietary techniques applied to endocrinology and metabolism disorders Endocrinology Metabolism disorders Dietary techniques applied to metabolism disorders Dietary techniques applied to Preventive medicine Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses Practicum 10		
Eating disorders Dietary techniques and eating disorders General sociology Psychiatry and eating disorders Free courses Practicum Dietary techniques applied to endocrinology and metabolism disorders Endocrinology Metabolism disorders Dietary techniques applied to metabolism disorders Dietary techniques applied to Preventive medicine Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses Practicum 4 4 4 4 5 6 7 7 8 7 8 8 8 8 8 8 8 8 8		
Dietary techniques and eating disorders General sociology Psychiatry and eating disorders Free courses Practicum Dietary techniques applied to endocrinology and metabolism disorders Endocrinology Metabolism disorders Dietary techniques applied to metabolism disorders Dietary techniques applied to Preventive medicine Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses Practicum 10		4
General sociology Psychiatry and eating disorders Free courses Practicum Dietary techniques applied to endocrinology and metabolism disorders Endocrinology Metabolism disorders Dietary techniques applied to metabolism disorders Dietary techniques applied to Preventive 7 medicine Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses Practicum 10		4
Psychiatry and eating disorders Free courses Practicum Dietary techniques applied to endocrinology and metabolism disorders Endocrinology Metabolism disorders Dietary techniques applied to metabolism disorders Dietary techniques applied to Preventive medicine Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses Practicum 20 20 20 20 20 20 Endocrinology 7 Endocrinology 7 Endocrinology A paediatric pathology Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses Practicum 10		
Practicum 20 Dietary techniques applied to endocrinology and metabolism disorders Endocrinology Metabolism disorders Dietary techniques applied to metabolism disorders Dietary techniques applied to Preventive medicine Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses Practicum 10		
Practicum Dietary techniques applied to endocrinology and metabolism disorders Endocrinology Metabolism disorders Dietary techniques applied to metabolism disorders Dietary techniques applied to Preventive redicine Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses Practicum 20 6 6 6 7 7 7 7 7 7 7 7 7 7		
Dietary techniques applied to endocrinology and metabolism disorders Endocrinology Metabolism disorders Dietary techniques applied to metabolism disorders Dietary techniques applied to Preventive medicine Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses Practicum 10		
and metabolism disorders Endocrinology Metabolism disorders Dietary techniques applied to metabolism disorders Dietary techniques applied to Preventive medicine Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1	
Dietary techniques applied to metabolism disorders Dietary techniques applied to Preventive medicine Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 7 7 7 7 8 8		6
Dietary techniques applied to Preventive medicine Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	Endocrinology	
Dietary techniques applied to Preventive medicine Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	Metabolism disorders	
Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	Dietary techniques applied to metabolism disorders	
Preventive medicine Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10		7
Diseases prevention Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	medicine	
Dietary techniques applied to prevention Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	Preventive medicine	
Dietary techniques applied to cardiovascular and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	Diseases prevention	
and respiratory diseases Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	Dietary techniques applied to prevention	
Dietary techniques applied to cardiovascular and respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	Dietary techniques applied to cardiovascular	4
respiratory diseases Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	and respiratory diseases	
Cardiovascular diseases Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	Dietary techniques applied to cardiovascular and	
Respiratory diseases Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	respiratory diseases	
Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	Cardiovascular diseases	
Dietary techniques applied to paediatric pathology Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	Respiratory diseases	
Paediatrics Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical 6 pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10		4
Dietary techniques applied to paediatric pathology Dietary techniques applied to surgical 6 pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	pathology	
Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 6 6 6 7 8 8 8 8 8 8 8 8 8 8 8 8	Paediatrics	
Dietary techniques applied to surgical pathologies Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 6 6 6 7 8 8 8 8 8 8 8 8 8 8 8 8	Dietary techniques applied to paediatric pathology	
Surgery fundamentals Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	Dietary techniques applied to surgical	6
Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	pathologies	
Dietary techniques applied to surgical pathologies Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10	Surgery fundamentals	
Dietary techniques applied to clinical and artificial nutrition Free courses 3 Practicum 10
