**Conference of the IOBC/WPRS (OILB/SROP) Working Group on
“Integrated Protection of Stored Products”
Campobasso, Italy, June 29 - July 2, 2009**

Invitation, Second Circular and Call for Papers

Dear colleague,

We kindly invite you to participate in the next Conference of the IOBC/WPRS Working Group on the “Integrated Protection of Stored Products“ that will be held on:

June 29 - July 2, 2009, organised by the University of Molise, Campobasso, Italy

The objective of this conference is to report on the new research developments in integrated protection of stored products, stressing the non-toxic methods of pest prevention, detection and control. Communication of these findings at the Conference will facilitate and maximise the dissemination of new technologies designed to reduce the use of residue building pesticides and avoid risks to non-target organisms, to the end-users, as well as providing protection of the environment from contamination.

The IOBC/WPRS Working Group on Integrated Protection of Stored Products meets every two years to discuss new findings regarding the following topics:

- biology of stored product pests
- methods of pest prevention during storage, transportation and handling
- pheromones, traps and other methods to detect stored product pests
- all aspects of biological control
- prevention of microflora infection and development of mycotoxins
- physical, chemical and other techniques for stored product pest control
- futurology: overviews and future trends on all aspects of storage pest control
- wood-boring, urban, quarantine and museum pests

Please find below further information regarding registration, submission deadlines, accommodation, etc. We are expecting participation from many researchers representing numerous countries and we hope that you also will be able to participate.

With kind regards,

Christos Athanassiou

Convenor

Pasquale Trematerra

Oral presentations

Short oral presentations (15 min.) are welcome; overhead, slide projection and Power Point will be available.

Poster presentations

Participants can also present their works as posters, which will be suspended at a separate section of the conference facilities (details about poster size will be notified).

Proceedings

Presentations will be considered for publication in the Proceedings that will be fully edited. English or French written manuscripts will be published in the IOBC/OILB Bulletin. To accelerate the print of manuscripts authors are requested to follow the "Instructions to Authors", and to hand in their papers and a version on computer disc (Word -file on a CD) during the meeting (deadline: July 2, 2009).

We will first meet on Monday, June 29; sessions and excursions are planned for June 30 – July 2. A detailed program will be sent to registered participants.

If you plan to attend the conference, **please register until April 15, 2009**. You will find enclosed a registration form and information on financial support, please inform **your colleagues about this meeting!**

Abstracts preparation

Abstracts of presentations will be presented in the Program that will be distributed to participants upon registration at the beginning of the Conference. Therefore, a standard size and uniformity will be required of each abstract. Abstracts should be typed (preferably using a word processor such as Word for Windows). The top line should be the title of the presentation in block (all capital) letters. The second line should list the Author(s) with the last name in block letters. The third and fourth line should be the full address of the institution or affiliation of the Author(s). The text should follow using font size of 12 point and a plain style such as Times New Roman. The abstract text is limited to 300 words without tables and figures.

Instructions to Authors

The IOBC/WPRS Bulletin publishes papers presented during IOBC/WPRS Working Group or Study Group Meetings and the IOBC/WPRS General Assemblies, as well as Guidelines for Integrated Production etc.

Languages: The papers should be written in English or French. The content should be clear, concise, and have been revised by an experienced speaker of one of these languages. If the papers are not written in English, an English translation of the title and the abstract should be included after the references.

The papers should consist of

- abstract
- keywords
- introduction
- materials and methods
- results and discussion (separated or combined)
- acknowledgements (if necessary)
- references

The Bulletin will be published by offset-printing. Therefore, compile your manuscripts in the final form as described below. In order to allow good and uniform reproduction, all manuscripts must be submitted, stored on a disc (e.g. CD), as a WORD or WordPerfect file. A ready-to-print-version of the manuscript as a printout of the text (including tables and figures) as delivered on disc has always to be included.

Principal formatting of the papers:

1. Paper-format: **A-4**
2. Left and right margins of the text: 2.5 cm
Upper margin: 3.0 cm, Lower margin: 2.5 cm
This results in a **printing area of 16 cm x 23.7 cm** (Please, use these measures when you have other paper formats than A-4, e.g. letter or legal format).
3. Line spacing: 1
4. Font: "**Times New Roman**" or "**Times**"
5. All **titles** and subtitles should be **flush left**. Fonts are printed in the example
6. Font of the abstract: 11 pt
7. Font of the running text: 12 pt (except titles and abstract)
8. **No** hyphenation in the text
9. Make sure that the first lines of all paragraphs (except for the paragraph that follows a title) are indented with a [Tab] command (0.8 cm). Do **not** use spaces instead of tabs and indents. Do **not** repeatedly use Standard-Tab-stops.
10. Incorporate tables and figures into the manuscript
11. Make your **tables** with the [Table]-function. Do not use repeated [Standard-Tab]'s or spaces. Legends should be mentioned **above** the tables and **under** the figures. **Use the same font for the text and the tables**. In the figures the smallest font should be 10 pt. Since the text is reduced to 78%, fonts smaller than 10 pt become unreadable. Tables and figures should be centred. Small figures may be embedded in the text.
12. Scientific names of plants and animals in **Italics**.
13. The authors' names should be typed in the normal font (not in capitals or any other face, not bold) in the text as well as in the "References".
14. **Never use coloured print** in figures, tables or text. No differentiate between parts of a diagram or between curves in a figure, use shading in different grey tones. Make sure that the grey tones can be clearly discerned from each other.
15. Photographs are often difficult to reproduce by offset printing. If inserting a photograph is necessary, black and white photographs guarantee a much better quality than coloured ones.
16. Do not number the pages; the page numbering is done when the Bulletins are being compiled.
